

FAHRENHEIT SCHOLARSHIPS

Fahrenheit Universities have created

PhD students from abroad.

The Mayor of Gdańsk in cooperation with the

Fahrenheit scholarships for the best three

Are you a phD student conducting interdisciplinary research? Would you like to undertake a year's internship in one of the best universities in northern Poland?

WHY CHOOSE US?

Unique opportunity

You can take part in the life of the three universities, which are most highly recognised by employers in Poland and enhance your qualifications in a development conducive environment.

Gdańsk-city of freedom

It is one of the most important business centres of this part of Europe with a rich tradition. A perspective, forward-looking, economically developed city that cares about visitors from various cultures, will definitely make you want to come back here.

The City of Gdańsk has actively supported the scientific development of young talents for many years. In 2005, upon the initiative of the then Mayor of Gdańsk, Paweł Adamowicz, the first scholarship was funded in Poland to finance studies abroad for the most outstanding Polish and International Baccalaureate graduates. They can undertake studies at prestigious universities all over the world and become the ambassadors of their home city abroad. In 2022, the scholarship programme was extended to include a new module - scholarships for international PhD students.

The Fahrenheit Universities (FarU) comprise the leading Polish higher education institutions - the Medical University of Gdańsk, Gdańsk University of Technology and University of Gdańsk.

For many years, those universities have been undertaking joint initiatives of the scientific. educational and organizational nature.

Owing to the creation of the Union of Universities, it is possible to enhance current cooperation and create in Pomerania one of the strongest academic centres in Poland.
